To Whom It May Concern,

This letter is to attest to the Public Adjusting services of Brandon Lewis and Strategic Claim Consultants. From the 2010 earthquake in Chile, to the Mother's Day tornadoes in Oklahoma, Hurricane Matthew, and multiple commercial and residential fire and flood damage clients that are personal friends or colleagues of mine in the Southeastern United States, I have witnessed the swift, professional, compassionate and aggressive handling and completion of their property damage claims. Brandon Lewis and Strategic Claim Consultants have allowed business owners and families to have reprieve, security, reassurance, accommodations, reparations, reconstruction, and repayment for their losses due to natural disasters.

Strategic Claim Consultants is the only public adjusting firm that BMS CAT is working with in the Southeastern United States. I highly recommend their services for large commercial property damage claims.

Warm Regards,

Amanda Daniels
