

CINNAMON SHORE

Cinnamon Shore retained SCC for claims relating to Hurricane Harvey across our master planned community. They displayed incredible knowledge of the claim preparation, submission, and navigation.

Our master planned community did not display the typical signs of hurricane damage; SCC understood the quality and standard of construction in place at Cinnamon Shore and fought for proper indemnity for our community and its owners. Over the course of a 1-year settlement, SCC provided continuous updates, displays of progress that ultimately resulted in a favorable settlement for our Community.

We would definitely recommend retaining their services.

Thank you,

Daniel Mazoch, P.E.
